LinkedIn: linkedin.com/in/vikramarka-mahendra-rotta-1536b4387

CAREER OBJECTIVE

Motivated Computer Science student interested in Full Stack Development and backend engineering.

Currently building strong foundations in Java, Spring Boot, SQL, Data Structures and modern software

development practices. Seeking internship opportunities to apply programming skills and contribute to real-world projects.

EDUCATION

Integrated M.Tech - Software Engineering

VIT-AP University

2025 - 2030

Relevant Coursework:

- Object-Oriented Programming
- Data Structures and Algorithms
- Database Management Systems
- Computer Networks
- Operating Systems
- Software Development

TECHNICAL SKILLS

Programming Languages:

- Java
- SQL
- Python (Basics)

Backend Development:

- Spring Boot
- Spring MVC
- REST APIs
- Dependency Injection

- Hibernate / JPA (Learning)

Frontend Development:

- Currently exploring frontend development concepts
- Familiar with component-based architecture through project work
- JavaScript fundamentals
- React.js (Learning)
- Next.js (Explored through portfolio project)

Database:

- MySQL
- Database Design Basics

Tools:

- Git & GitHub
- IntelliJ IDEA
- VS Code
- Postman

PROJECTS

Spring Boot REST API Applications

Java | Spring Boot | MySQL

- Built and explored Spring Boot REST API applications while learning backend development concepts.
- Implemented HTTP methods including GET, POST, PUT and DELETE operations.
- Practiced IoC, Dependency Injection and Spring component management.
- Explored database connectivity and layered architecture concepts.

Developer Portfolio Website

Next.js | TypeScript | Tailwind CSS

- Created a personal portfolio website to showcase skills, projects and learning journey.
- Explored modern frontend architecture and reusable component structure.
- Used AI-assisted development while understanding project organization and workflows.

LEARNING & DEVELOPMENT

Currently learning:

- Advanced Java
- Spring Boot Development
- Data Structures and Algorithms
- SQL and Database Management

- System Design Fundamentals
- Cloud Technologies

ACHIEVEMENTS

- Solving Data Structures and Algorithms problems regularly.
- Building backend applications using Java and Spring Boot.
- Maintaining a consistent software development learning roadmap.

CODING PROFILES
